

Creating the most desirable residential communities in which to live.

8/17/2011

Board of Directors Villages of Carmel

As part of Premier Communities ongoing commitment to creating the most desirable communities in which to live, a formal inspection of your community was conducted by Premier's Field Supervisor, Hart Dinkins. This inspection was provided at no cost to your community. A summary of his findings are included below:

Date of inspection: 8/17/2011

The main entrance is being maintained to acceptable horticultural standards. The seasonal color is attaractive. The landscape enhancements at Pockrus Page and Camino Real and at Pockrus Page and Cliffside are a very nice improvement to the property. The city has not maintained the ROW along Post Oak in some time. This can become a rat harborage if the grass is allowed to grow up along the fences. Overall this property is much improved.

The full report is included on the following pages for your review and has been uploaded to PremierConnect. Your Association Manager will be discussing the results of the inspection at your next Board Meeting and can answer any questions that you may have.

Warm regards,

Caroline Guerra Premier Communities

cc: Allen Abtahi

Property Name:	Villages of Carmel	Date of Inspection:	8/17/2011
Inspected By:		Manager Name:	Allen Abtahi
Division:	Dallas Portfolio	Director Name:	Caroline Guerra
